## AIR ADJUSTING VALVE MERCHANDISING STRIP

Motor Guard is pleased to offer a Merchandising Strip presentation of their popular and economically priced Spray Gun Air Adjusting Valve, Model AAV5059. The Motor Guard Air Adjusting Valve is designed for the precise control of air pressure entering the paint spray gun or other critical air tool. The AAV4059 features a tapered needle/seat that is finely engineered to provide a smooth adjustment between fully closed and fully open with an infinite range in between.

Packaged as the **Model AAV459MS Merchandising Strip Kit**, each contains (6) AAV4059 Air Adjusting Valves and (1) heavy-duty PVC merchandising strip with a colorful, eye-catching header card and S-hook. On the reverse if the header is refill instructions including a bar-code.
