

MOTOR GUARD

ULTIMATE SANDING BLOCK COLLECTION

NEW FROM MOTOR GUARD

SIX BLOCK ASSORTMENT - MODEL AP-2

Motor Guard Corporation is pleased to introduce a collection of the ultimate sanding blocks in an attention grabbing pop-up counter display – The **AP-2 Sanding Block Assortment**.

With a quality block for every application, from fast cutting to color sanding, the AP-2 assortment is the one-stop finishing solution.

The **Soft Block® (SB-1)** features two different densities for the ultimate sanding of curved or irregular surfaces while the **Block Buster® (HT-1)**, with its unique hole side, provides for aggressive hard block sanding.

The **Memory Block® (MB-1)** offers another double-sided block with a dense “memory” foam that conforms to irregular surfaces with little pressure. For maximum gripping power on the toughest applications, the **Wonder Block® (WB-1)** is ideal on flat or slightly curved surfaces.

The **Rocker Block® (RK-1)** and the **Roller Block® (RL-1)** both feature a soft and pliable outer layer for superior finish and a non-slip grip of abrasive sheets plus a rigid inner layer to prevent the transfer of finger marks. The Rocker Block fits a standard 6” PSA disc for dry sanding while the Roller Block uses a folded sheet and is the ultimate wet sanding block.

Users of these unique blocks report reduced paint prep times, lower material costs and increased paint department productivity.

From Pulling to Painting, Motor Guard Corporation has a product for all of your autobody repair and refinishing needs.

AP-2 Sanding Block Assortment

MAGNA

ULTIMATE SANDING BLOCK COLLECTION

FROM MOTOR GUARD

MAGNA MEMORY BLOCK® MB-1

This unique, Quality US manufactured block offers sanding solutions to challenging and difficult applications. The soft side utilizes a dense material with a unique "memory" feature, reducing pressure when in contact with irregular surfaces. The other side is a hard strip of vinyl for PSA papers, offering extreme curving power for complex character lines.

MAGNA ROCKER BLOCK® RK-1

For all jobs from rough sanding filler to final finish sanding, this block utilizes a standard 6" PSA sanding disc. The unique and innovative shape features a radius edge for contour sanding with one hand or both. The multi-layer design eliminates the transfer of finger marks. "Wrap it and Rock."

MAGNA ROLLER BLOCK® RL-1

This unique block is specifically designed for wet sanding applications. It utilizes a 5-1/2"x9" abrasive sheet folded into thirds and the exclusive rounded sides lift the edges of the sheet away from the work, eliminating sanding defects. The multi-layer design eliminates the transfer of finger marks. "Wrap it and Roll".

MAGNA WONDER BLOCK® WB-1

This unique, quality US manufactured product is a rugged, ergonomically designed block for maximum gripping power over flat to slightly curved surfaces. Designed for use with all types of sanding paper, wet or dry. Recessed finger grip area allows a comfortable yet firm grip for maximum efficiency in the sanding process. The flat semi-rigid surface is ideal for the toughest applications.

MAGNA BLOCK BUSTER® HT-1

The Holey Terror - These unique, rugged semi-rigid, versatile sanding blocks are designed for flat to medium curved surfaces. The strategic hole pattern side provides multiple cutting edges, creating a 30% faster cutting surface, gripping the sandpaper, wet or dry. The back side provides rigidity and a comfortable, easy to hold surface.

MAGNA SOFT BLOCK® SB-1

These unique, double-density blocks act as two blocks in one, achieving the ultimate in block sanding of curved or irregular surfaces. These blocks require no adhesives - paper sticks like glue. The dense side provides for aggressive blocking while the soft side is for fine color sanding.

Users of these unique Sanding Blocks report reduced paint prep times, reduced material consumption and increased paint department productivity.
