## MAXIMUM SANDING BLOCK COLLECTION

NEW FROM MOTOR GUARD

### BIG BLOCK ASSORTMENT - MODEL AP-4

**Motor Guard Corporation** is pleased to introduce a collection of their popular Big Block sanding blocks in an attention grabbing pop-up counter display - **The AP-4 Sanding Block Assortment.**

Featuring all six blocks from the Motor Guard Big Block collection, the AP-4 assortment makes quick work of the toughest jobs.

The Big Block line powers up hand sanding with a strong and comfortable grip. Three layers of engineered materials permit just the right degree of flexibility to ensure even pressure over the large, flat sanding surface. Exclusive radius edges add to the comfort of the block as well as providing a surface for contour sanding. Big Blocks are designed for use with 2-3/4" PSA rolls or standard abrasive sheets.

Included in the kit are the original Big Blocks, **BG6-1** (6-1/2") and **BG12-1** (12") with smooth, flat faces and multi-layer construction. These blocks provide a firm comfortable grip for heavy sanding jobs.

Also included are the **BGH6-1** (6-1/2") with its unique hole side which acts like a grater for fast, aggressive sanding and the **BGS6-1** (6-1/2") with a soft outer layer for fine color sanding.

Completing the kit are the hook-faced Big Blocks, **BGK6-1** (6-1/2") and **BGK12-1** (12") with a unique hook backing on one side for use with loop sided abrasive sheets.

All Big Blocks are designed to provide even, powerful sanding while eliminating high spots and pressure points caused by the transfer of finger marks.

The Motor Guard AP-4 Assortment is the latest addition to a full line of refinishing products. From Pulling to Painting, Motor Guard Corporation has a product for all of your autobody repair and refinishing needs.

**Users of these unique Sanding Blocks report reduced paint prep times, reduced material consumption and increased paint department productivity.**

## MAXIMUM SANDING BLOCK COLLECTION

FROM MOTOR GUARD

### BG6-1 Standard Big Block (6-1/2")

The original Big Block powers up hand sanding with a large sanding surface and a comfortable grip. For use with 2-3/4" PSA rolls or standard sheets. Ultra-flat face flexes slightly to conform to curved panels.

### BGS6-1 Soft Side Big Block (6-1/2")

Designed for fine sanding and color sanding on large areas this Big Block has a soft outer layer. The rigid center maintains flatness while preventing the transfer of finger marks to the finish.

### BG12-1 Standard Big Block (12")

Multi-layer construction and a smooth flat face, this is the original Big Block in a longer length for two-handed power blocking on large panels. For use with 2-3/4" PSA rolls or standard sheets.

### BGK6-1 Hook Face Big Block (6-1/2")

All the power and features of the Big Block with a hook face for use with loop sided abrasive sheets. Quickly and cleanly change sheets for maximum productivity. Low profile hook for even sanding with no tooth marks.

### BGH6-1 Hole Side Big Block (6-1/2")

No other block cuts as fast. The unique hole-side acts like a grater and provides for aggressive cutting action and high productivity. The soft center provides for a powerful finger grip.

### BGK12-1 Hook Face Big Block (12")

A hook faced Big Block in a longer length for two-handed sanding. No other hook and loop block flexes like the Big Block to conform to slightly curved panels. This allows for perfect finishing with no pressure points.

New

## RIGID SANDING BLOCKS FOR HIGH-PERFORMANCE BLOCKING

Motor Guard has developed three new Ultra-Rigid Big Block models for fast and aggressive blocking. Engineered from super-dense yet light-weight materials, these new sanding blocks provide just the right amount of flex to conform to body panels and slight contours. Ultra-flat faces result in fast and flawless finishes.

### BGR-1 RIGID BIG BLOCK (1-1/2" x 11")

Create the ultimate blocking bar by wrapping an abrasive sheet around this narrow, rigid block. Just the right width for power blocking in small areas, this block flexes slightly to follow contours.

### BGR6-1 RIGID BIG BLOCK (5-1/2")

An ultra-flat super rigid block for use with 2-3/4" PSA rolls or half-sheets with no waste. Finger recesses on the sides allow for a firm yet powerful grip while tackling the toughest jobs.

### BGR12-1 RIGID BIG BLOCK (11")

For aggressive, two-handed blocking, this long, rigid sanding block is unequalled. Use with 2-3/4" PSA rolls or full sheets with no waste. Power block large areas with ease.

From Pulling to Painting, Motor Guard Corporation has a product for all of your autobody repair and refinishing needs.
