HOOK & LOOP MINI-BLOCKS PAINT REPAIR KIT

Mini-Block Paint Repair Blocks

Three Unique Hook & Loop Shapes to Handle Detailed Paint Repair on a Variety of Curves, Channels, Contours Character Lines

Motor Guard has introduced a precision paint repair kit featuring three uniquely shaped mini sanding blocks along with an assortment of abrasive sheets to remove runs, sags and defects on all finishes. The blocks are wrapped with an ultra-low profile hook facing that firmly holds the abrasive sheet while imparting a perfect finish.

The AP-8 Kit includes and assortment of six premium quality silicon carbide, wet/dry abrasive sheets (12 sheets per pack) in grits from 80 to 1500.

Hook & Loop Mini-Blocks measure 3-1/2 inches in length and include a Rectangular Mini-Block (MBK-10) for flat sanding and sharp corners, a Double D Mini-Block (MBK-11) with radiused sides for sanding inside contours and a Curved Mini-Block (MBK-12) for complex body lines and details. The kit is packaged in a colorful see-through pegboard display.
